THE **RIGHT COMPANIES**

Lead generation package

In a digital world overwhelmed with data, finding the right companies to market to and engage with effectively is a tough ask for any company in the B2B marketplace. Our **Lead generation package** is a flexible solution to help your business meet this challenge.

Giving you access to locally sourced UK & international B2B data for 33m companies & 35m executive contacts across 70 countries, **Kompass EasyBusiness** will undoubtedly save you time & money. You can run your data searches across specific sectors using a broad range of search criteria to find new prospects that match your target markets.

As a next generation B2B business intelligence solution, **ByPath** analyses Big Data found online: from social networks, blogs, the media, twitter & Kompass databases to help you find, connect & engage with your prospects, through relevant & targeted alerts.
